

DR. STEVEN M. ZOELLNER

PINEHURST PLASTIC SURGERY SPECIALISTS, PA
PINEHURST, NORTH CAROLINA

American Board of Plastic Surgery

WHAT IS YOUR APPROACH TO PATIENT TREATMENT?

I choose to spend a lot of time with my patients so that I can best understand their goals and desires and how we can accomplish those goals. Together we develop an individualized plan that uniquely suits their needs and gives them the most natural-looking cosmetic result that not only makes them look better, but also feel better about themselves.

WHAT IS UNIQUE ABOUT YOUR TREATMENT STYLE?

Everything we do in our office is done in a nonrushed way so that our patients have ample time to learn about their options and make well-informed decisions about their treatment. We understand the anxieties that patients can experience in making elective cosmetic decisions, and we spend the time needed to allay their concerns. We give them a very individualized experience.

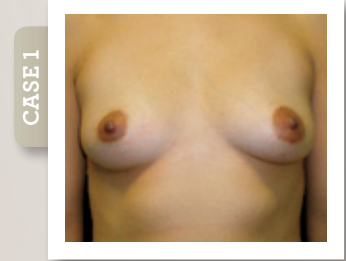

DESCRIBE YOUR PRACTICE SETTING.

Our 3,500-square-foot facility is spacious and comfortable with an inviting, contemporary design. We perform surgeries in our on-site, AAAASF-accredited surgical suite that allows us to offer patients a safe, convenient and private experience.

INDIVIDUALIZED EXPERIENCES

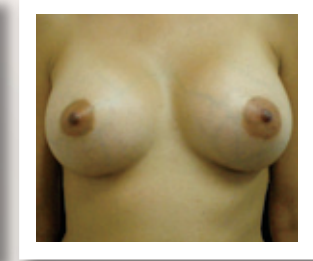

Located in the beautiful community of Pinehurst, North Carolina, Dr. Zoellner treats patients from across the state using a host of surgical and nonsurgical modalities. "I see a variety of patients in my office—a balance between younger women seeking breast enhancement; women who have experienced changes to their bodies after having children and are looking for body contouring options; and an older group that is seeking to address anti-aging concerns," says Dr. Zoellner. "We offer a full scope of treatments and procedures to suit our patients' needs as they see changes throughout all the stages of their lives."

BEFORE

CASE 1

AFTER

▶ BEAUTIFUL BREAST ENHANCEMENT

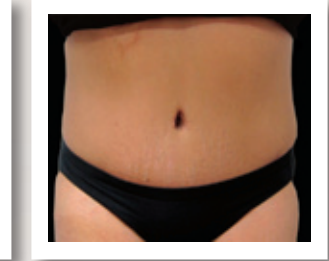

Desiring slightly larger, yet natural-looking breasts, this 36-year-old patient sought Dr. Zoellner for a bilateral breast augmentation mammoplasty with 350-cc silicone implants.

BEFORE

CASE 2

AFTER

▶ TOTAL TUMMY MAKEOVER

To remove this 39-year-old patient's excess skin after losing 45 pounds, Dr. Zoellner performed a full tummy tuck and SAFELipo® on her abdomen and hips for a contoured look.

A MEMBER OF THE AMERICAN SOCIETY OF AESTHETIC PLASTIC SURGERY, DR. STEVEN M. ZOELLNER FOUNDED HIS PRACTICE IN 1989 WITH THE GOAL OF USING HIS SURGICAL TECHNIQUE TO DELIVER NATURAL-LOOKING COSMETIC RESULTS THAT MADE PEOPLE FEEL BETTER ABOUT THEMSELVES. A RELAXED, YET DETAIL-ORIENTED SURGEON, DR. ZOELLNER IS KNOWN FOR HIS HANDS-ON APPROACH—HE EVEN DOES ALL OF HIS PATIENTS INJECTABLES TO ENSURE THEY GET QUALITY RESULTS.

HOW DOES YOUR STAFF ENHANCE YOUR PRACTICE?

Each person at our practice is completely involved in the patient's welfare and helps guide them through each phase of the process. Surgery can be a time of great anxiety for many patients, so we all work together to put them at ease while listening to them and making them feel comfortable.

HOW CAN SKIN CARE HELP A SURGICAL PATIENT ACHIEVE AN IDEAL RESULT?

While surgical procedures can rearrange and tighten tissues, we often consider the use of a skin-care program such as Obagi Medical®, or facial fillers to complement the surgical results. In some cases, aesthetic injectables and skin-care programs alone may obtain the desired effect.
